

**MAISON LAMYRIS**  
**PARIS**

*"A French house that will surprise you"*

Created in the heart of Paris, Maison Lamyris embodies French elegance through a refined and accessible perfume brand.

We offer you a little-known alternative in the perfume market, combining naturalness, responsibility, craftsmanship and innovation.

Let yourself be carried away by our sublime creations, which you can mix, adjust, and personalize as you wish to create a unique fragrance that reflects you.

Maison Lamyris: an ever more personal experience!

## Our Commitments and Values

Choosing Maison Lamyris means ensuring a natural formulation, using carefully selected ingredients for the quality and accessibility of our perfumes.

Every aspect of our packaging has been designed to reflect our commitment: recycled glass, dimension stone, kraft paper.

A design inspired by Haussmannian architecture for an authentic and eco-friendly aesthetic.

Each of our perfumes symbolizes the craftsmanship and sustainability of Maison Lamyris.

## Innovation and Creativity

Lamyris doesn't just follow trends; we redefine them.

Our layering concept offers a unique and customizable olfactory experience. By layering two different fragrances, it is possible to create a bespoke perfume tailored to individual tastes and moods.

This mix-and-match method opens up a world of possibilities, where everyone becomes the creator of their own signature scent.

## How ?

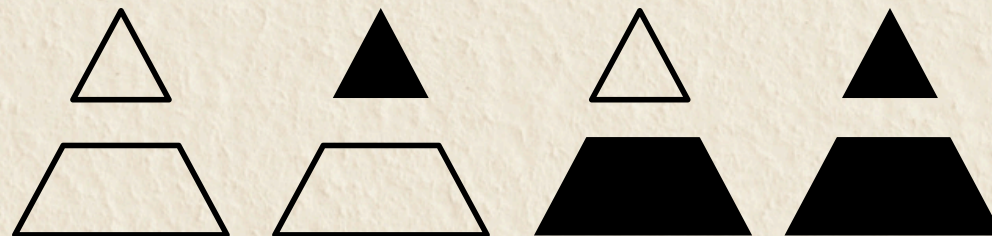

No need to be a perfume expert to create your own fragrance.

Maison Lamyris offers fragrance families to help you easily find your way.

For this, you need one perfume with top and heart notes, and another with heart and base notes. By combining the two, you can achieve the full sensory experience you're looking for.

The advantage: wear them together or separately, as you wish!
